TWENTY-SEVENTH YEAR

DECATUR, ILLINOIS, TUESDAY, SEPTEMBER 6, 1893.

NUMBER 136

THE VETERANS THE GUARDS MARTIAL LAW

Tremendous Crowds at Cincinnati--Parades and Receptions.

CINCINNATI, O., Sept. 6.—Despite the immense arrivals of veterans to attend the G. A. R. encampment yesterday and the preceding days, before the salute was fired at sunrise this morning the depots were crowded with more arrivals. Special trains arrived faster than they could be handled at the terminals. In early hours the rush continued, so that the later trains stopped at suburban points where street cars and other conveyances could take the arrivals to Camp Sherman and other smaller camps. This was Naval Day. Tomorrow will be Army Day, to be followed Thursday by the Peace Jubilee. The National Naval Association gave a grand parade this morning. Other features of the day will be regimental, brigade and other reunions. Citizens also tendered receptions to Commander-in-Chief Gobin, Rear Admiral Kelley and the presidents of various ladies' auxiliary associations.

POPULISTS OUTSPOKEN

Denunciation of Traitorous Leaders and the Democrats.

CINCINNATI, OHIO, Sept. 6.—The Middle-of-the-Road Populists convene in national convention today. The temporary organization was made permanent and chairman Ignatius Donnelly made another ridiculous speech, denouncing all those who co-operate with the fusion movement and strongly advocating the reorganization of the party not only for an independent presidential ticket, but for independent candidates for congress, state officials, etc. A letter read from ex-Governor Wolfe of Colorado, denounced Butler as a treacherous chair-

SHIPS LOST IN THE ICE.

Captain Mason Gone Crazy--Difficultly with Dominion Officials.

SAN FRANCISCO, Cal., Sept. 6.—A Seattle special says: A letter from one of its captains received by the Pacific Steam Whaling company is as follows:

"JUNEAU, Aug. 29.—I arrived from the westward. The latest from the Arctic is that all the vessels that were caught in the ice were lost. Mason, captain of the Jennie, is crazy. I obtained the information from Capt. Eamon, pilot of the gunboat Wheeling.

(Signed) J. C. DOWNING.

The vessels caught in ice to which relief was sent, were: The Jesse H. Freeman, the Wanderer, Orea, Rosario, Nowport, Fearless, Belvidere and Joannic. Some of these vessels are already known to have been destroyed and it has been understood that one or two already escaped before the ice broke up. The vessels were valued at about one hundred thousand dollars each.

It is reported that Col. McCook, U. S. consul at Dawson, had a slight difficulty with the dominion officers. As a result he was compelled to remove the U. S. flag from the store of the Alaska Commercial Co., and allow the British ensign to be hoisted in its place. The American arms were removed from the door and McCook sought another office.

AT HIS DESK AGAIN.

WASHINGTON, Sept. 6.—President and Mrs. McKinley arrived this morning from New Jersey. They were met by the White House carriage and driven to the White House directly. Both show beneficial effect of the outing.

ITALY IN LINE.

ROME, Sept. 6.—The Popolo Romano says the government has decided to second the Czar's peace conference proposal in every way.

Arrival of Regiment at Camp Lincoln To-Day.

Enthusiastic Reception at Springfield--Parade and Feast on Wednesday -- Thirty Days' Furlough.

SPRINGFIELD, Sept. 6.—First section special train bearing the Fifth Illinois regiment arrived from Lexington, Ky., shortly before noon today. The troops were cheered by thousands at the station. The train proceeded to Camp Lincoln, where they will be camped till furloughed. Twenty-five sick were brought, 23 unable to be transported. Gov. Tanner met the first section at the depot, Mrs. Tanner personally superintended the care of the sick.

Several wagons loaded with supplies for the soldiers were sent to the camp to give substantial evidence of welcome home.

On the first section were Col. Culver and staff, Companies H, D, B and K, with Captains Cassell, Miller, Barber and Watkins in charge. The second section came in at about 2 o'clock. The third section which will come last will have the sick on board.

RECEPTION--PARADE.

The regiment will parade the streets of the city Wednesday forenoon, and at about noon Springfield's feast spread for the boys will be served by ladies and citizens at Camp Lincoln.

Many of the volunteers will be given furloughs for thirty days on Wednesday.

BIG STORM AT TERRE HAUTE

TERRE HAUTE, IND., Sept. 6.—A terrible wind storm swept over this city yesterday, uprooting trees and blowing down houses. The storm was accompanied by thunder and lightning and several houses were struck but no one, so far as known, was injured, although Dr. Willis, a physician, was rendered unconscious for an hour by a bolt which struck his residence.

Stock and buildings in the surrounding country are reported to have been badly damaged, but as yet no fatalities have been reported.

The Knights of Pythias hall was unroofed and lodge furniture and the uniform rank properties ruined by water. The aggregate loss will be heavy.

BLOODY FIGHT.

Two Men Had a Lively Round in the Klondyke Restaurant.

Samuel Graden and Charles Burns had a bloody fight last night in the Klondyke restaurant. Officer Koshinska stepped in the place while the fight was in progress and took both men to the police station. They were covered with blood and their shirts were nearly torn off. Burns was badly bruised on the face and had a cut on his chin where he had been kicked. Graden was marked about the face and one thumb was badly chewed. Dr. Wilhelm was called and went to the police headquarters and dressed the wounds of the men.

WEATHER.

CHICAGO, Sept. 6.—Illinois: Fair tonight and Wednesday; much cooler to-night; continued cool Wednesday; brisk northwest winds.

For Rent—Five large rooms, 1125 North College street.—6-21w

—Miss Katherine Calhoun has returned from a visit at Geneseo, Massachusetts and other points in the northern part of the state.

—Grand Berginger, who has been visiting in Cincinnati, has returned home.

—Mrs. Daisy Boone of Tuscola arrived in the city today from Omaha, Neb., where she has been visiting friends.

ALL HELD FOR MURDER

BLOOMINGTON, ILL., Sept. 6.—W. A. Swearingen, Homer Swearingen and Homer Lindhorst waived examination and were bound over to the grand jury in \$3000 each for murder, the offense being the killing of young James Perkey Saturday night near Mount Carmel church. The Swearingens, Lindhorst and others, a respectable people, were scouted about the fields hoping to capture a thief. Perkey and his brother and cousin drove along in a buggy, and on their refusing to halt three shots were fired, one of which blew away part of James Perkey's head.

SERVING LUNCH.

The Ladies of the Congregational Church Has Good Patronage.

The members of the sewing society of the Congregational church served lunch today in the vacant store room on South Park street next to the Peabody and Burrows bank. They had quite a good patronage of people who were in the city. Coffee and sandwiches and ice cream and cake were served to quite a large number. The proceeds will go toward paying off the church building debt. There yet remains \$1500 debt and of this amount the ladies of the church have pledged themselves to raise \$500.

The ladies in charge of the lunch today were as follows: Mrs. F. O. Damm, Mrs. Buchanan, Miss Leonette Johnson, Mrs. Gabbert, Mrs. C. D. Hayward, Mrs. T. L. Evans, Mrs. George R. Bacon, Miss Abbie Pratt, Mrs. Burg, Mrs. Bachman and Mrs. Clyde Lyons.

On account of a typographical error it was stated in this paper yesterday that the ladies would serve lunch on Sunday. This was a mistake as it was intended to announce that the lunch would take place on show day.

Divorce and Injunction.

Mrs. Allen Lee has started a suit for divorce from her husband, Francis Lee. She also asks Judge Vail to issue an injunction restraining Mr. Lee from disposing of a 100 acre farm in Friends Creek township. Drunkenness and cruelty are mentioned as grounds for divorce. Hunn and Park represent the plaintiff.

Polly A. Baker, aged 78 years, died at her home in Pontiac.

Mayor Penwell Turns Pana Over to Sheriff Coburn.

Many Complications Arise--Strikers Want Gov. Tanner to Visit the Town--Dr. Millard's Critical Condition.

PANA, ILL., Sept. 6.—The city of Pana is now under the control of Sheriff Coburn and his deputies. Mayor Penwell tried in vain to secure necessary police protection for life and property from the members of the city council. They refused to vote for extra police, and the mayor throw up the sponge, and now, until the coal-miners' strike is settled, the sheriff will take the responsibility of preserving order. Deputy Sheriff Edmunds is in charge of the deputies. The saloons are closed and will remain closed for another week. More Springfield rifles have been received by the Sheriff and they are all in charge of the deputies.

DR. MILLARD'S CONDITION.

Rev. Dr. Millard's condition remains unchanged and is still serious. The following notice has been posted:

A reward of \$100 is hereby offered for information that will secure the arrest and conviction of the person or persons who assaulted Dr. Millard on the streets of Pana on September 1, 1893.

(Signed) IRA COBURN, Sheriff.

The strikers want Gov. Tanner and the State Board of Health officers to visit Pana, the former to determine for himself whether the Galesburg battery or the S. of V. battalion should be sent to Pana, and the latter to pass on the healthfulness of the Negro camp. It is contended by the strikers that the Negroes will spread disease in Pana.

The usual number of Negroes are at work in Springside mine.

The hearing on the injunction proceedings at Taylorville has been postponed until Thursday on account of insufficient affidavits.

MILLS AT ELKHART

Received with Enthusiasm--Caldwell Denounced for Talking Politics.

ELKHART, ILL., Sept. 6.—Labor Day was fittingly observed by the people of this vicinity yesterday with a picnic at Elliot's grove, given under the auspices of St. Patrick's Catholic church of this city. A better place to hold a picnic could not have been selected. The attendance was a disappointment to those in charge, for this annual picnic had never failed to be one of the best attended in this part of the country.

The ladies of the church supplied the wants of the hungry visitors. The program was an excellent one inasmuch as the management was successful in having such personages as Hon. I. R. Mills, ex-Governor Oglesby and others among their speakers. Father Thomas D. Kennedy of St. Patrick's church was chairman and made the address of welcome at the close of which he introduced Hon. I. R. Mills. Mr. Mills talked to an appreciative audience, which frequently interrupted him with applause. Mr. Mills was followed by Ben Caldwell. In the course of his talk Mr. Caldwell did what he had expressly been requested by the management not to do. He mentioned politics. Caldwell undertook to explain to his "dear former friends" how they had been bounced out of some \$700,000,000 occasioned by low prices for their farm products. But a very few of those present had missed their share of that sum, according to Mr. Caldwell. The startling assertion failed to create any great excitement. Very unfavorable comments could be heard from every side of Caldwell's disregard of the desires of those in charge of the picnic.

Ex-Governor Richard J. Oglesby spoke to his old friends and neighbors in a manner that evidenced "Uncle Dick" to be in one of his happiest moods.

NEW QUEEN ON THE THRONE

AMSTERDAM, Sept. 6.—There was a great demonstration here today attending the impressive ceremonies of the enthronement of Queen Wilhelmina. Brilliant pageants and loyal shouts. All the splendor of the royal retinue was overlooked as the young Queen appeared on foot amidst people decked with royalty. On her head was a diadem of diamonds; a robe of white silk with long train under a mantle of rich, red velvet, richly embroidered and bordered with ermine. The sword of state was carried before her by a general. Her majesty carried herself with fortitude but with blanched cheeks bore evidence of her profound emotion. The jewels worn by the young queen were part of those stolen in Brussels in 1835. Some of them were recovered in New York a year later. It is impossible to accurately describe the acclamations which greeted the queen.

RAILWAY NEWS

Wreck on the Wabash at Curran Station To-Day.

Cars Off the Track—Nobody Hurt—
Railroad News in General—New
Sleeping Cars—Personal Notes.

The Wabash suffered a bad wreck this morning at Curran Junction, a station on the main line west of Springfield. Passenger train 13 which leaves here at 8:45 a. m. collided with a Bluff Line freight at the crossing. The engineer on the Wabash train had whistled for the crossing and after having received the proper safety signals he proceeded with his train. The Bluff Line freight was switching at the time, failed to obey the interlocking switch signal, and dropped a car down just at the time the Wabash was going over the crossing. The engine was badly damaged but not thrown from the track. The mail, express and baggage cars were all thrown into the ditch, breaking away from the engine. The occupants in these cars in some way escaped being hurt. The train was in charge of Conductor Charles Webb and an extra train of express and mail cars were immediately made up at Decatur and sent to the wreck to pick up the mail, baggage and express so that the train could proceed on to Quincy, its destination. The wrecking crew was called from Springfield. The fault lies entirely with the Bluff Line crew as they failed to answer the interlocking signals which were turned against them. No passengers were hurt and the train was delayed about five hours.

F. H. Furvis, formerly a carpenter in the bridge department of the Wabash, has accepted a similar position with the Illinois Central.

The amount of freight to be handled has so increased in the last few weeks that the force at the Wabash freight depot are compelled to work until midnight about three nights in a week.

The P. D. & E. are still wanting a large force of men for their gravel work.

W. L. Foulke was checked out last night as coxswain for the Vandalla Line and succeeded by G. A. Foster, who in turn is succeeded by F. D. Lorton, who has been operator at South Decatur. Mr. Foulke has purchased a farm near Emory with the growing crop and will immediately move on to the place.

The clerks in the different Wabash departments here are busy these days making comparative statements for use at the annual meeting of the directors to be held at the general offices in St. Louis on September 13.

The Wabash has had the European show on their line for an entire week. They go to Danville tonight.

The Wabash has adopted the same system of watch inspection as employed on the Santa Fe.

I. F. Pharo, Wabash foreman of telegraph construction, is at St. Louis today.

Notwithstanding the revenue on checks many of the railroads will continue to pay their forces with them. Two cents is not much to put on a check but when that much is paid on thousands of them every month it amounts to a large sum. The Wabash with upwards of 1000 employees, it requires an expenditure of \$175 a month.

James Colton, traveling freight agent for the Illinois Central, is in the city today.

The new sleeping cars which the Wabash is to get will have such historic names as Lexington, Concord, Bunker Hill, Boonville and Brandywine.

The Wabash has begun to be bothered with the ticket counterfeiters as a number of such tickets have appeared at the general offices in St. Louis. This is a new danger which the railroads are going to have to combat.

Brakeman Albert Wade of the Wabash is taking a lay off.

John Becker, formerly in the Wabash paint shop, has resigned his position and gone to breaking on the road.

Tom Cuttle, a Wabash brakeman on the Wabash car local, is taking a lay off.

Mike Tully has resigned his position in the Wabash boiler shop.

Trainmaster John Swigert of the Wabash is at the work at Curran today.

George W. Mudd, master mechanic of the Wabash, is in the city today.

S. B. Kramer, chief dispatcher of the Wabash and family returned this morning from a two weeks' tour of the eastern summer resorts.

Mr. and Mrs. Shellabarger's marriage and the gifts brought by the guests were unique and thoroughly in keeping with the sentiment of the anniversary. Every kind of an article which is produced in tin from a huge bunch of tomatoes to a large flour can was represented among the number. Supper was served on tin plates and eaten from tin spoons. The affair was arranged by Mrs. Neubitt and Miss Corlone Shellabarger. Mr. and Mrs. Shellabarger attended the entertainment at the Grand M. H. club and on their return home found the house brilliantly lighted and in possession of their friends. About 35 guests were present.

Most everyone is willing to give something and the committee will have plenty of money and also plenty to eat. They intend to give the boys a rousing welcome when they return if it is possible to do it. The band will be secured to meet them at the train and the banquet which is to be given will be one of the most elaborate affairs of the kind ever held in the city.

TRUE CHIVALRY.

The Real Hero of Chapultepec, William S. Walker, and His Magnanimous Act.

The war with Mexico is a part of our martial history. Taylor and Scott and Davis and Lee came out of it immortal. The epic of that great struggle was the storming of Chapultepec. That frowning fortress was the Gibraltar of Mexico. Its massive walls seemed impregnable. But American daring haled at no obstacles, and an intrepid band of volunteers was chosen to scale and assault it, says the Chicago Journal.

Among the first of the dauntless few who braved their way through shot and shell to the fortress on that dreadful day was a young Mississippian, handsome as Alcibiades, proud, confident and thrilling with patriotic fervor. He was among the first, if not the first, to scale the wall, and, sword in hand, dashed along that storm-swept rampart in advance of all his fellows to cut down the waving flag of the enemy and reap the immortality of the deed. He was the first to reach the flag; his sword was raised, when he heard swift footsteps behind him he paused, turned and saw his commanding officer, to whom he was tenderly attached and deeply obligated. And then this gallant Mississippian without a moment's hesitation, with the bow of a Chesterfield, lowered his sword and with the point at rest stood aside while his friend and commanding officer cut down the flag of Mexico and was hailed for the laurels of that splendid day.

In the history of battles there was never a more gallant, more chivalric deed than that. And the real hero of Chapultepec, maimed and gray, but glorious still, sits just before me here to-night in the person of my noble and beloved friend, Gen. William S. Walker, of Atlanta.

UNCLAIMED BANK BALANCES.

They Amount to Nearly Half a Million Dollars in Canadian Institutions.

It may seem strange, says the Toronto Monetary Times, that there is in the banks of Canada a sum approaching \$500,000—in 1896 it reached \$427,108 and 1897 it was \$387,603—consisting of unclaimed balances. The sums are various, ranging from one cent or a fraction of a dollar to thousands of dollars. One wonders how many of these balances arise. We have been told that many an old man or old woman will make deposits and not wishing their relatives to know of their savings, will say nothing about the fact. Should such old persons die the only way in which this deposit could probably become known would be through the list of such names published annually. Again, there are numbers of persons who, having long had an account with a bank, will draw all their money except one or two dollars. This helps to account for many a small sum.

Naturally, the older banks have the larger accumulation of unclaimed money in this or other ways. The Bank of Montreal and the British bank have large sums, but the city district savings bank exceeds either of them, having nearly 4,000 separate unclaimed balances, the aggregate of which is over \$50,000. It is only of late years that the government of Canada has busied itself in taking custody of these funds. Not, presumably, that they were unsafe in the hands of the banks, but perhaps that it was a paternal duty of the state to control them.

PUZZLED BY HER OFFSPRING.

A Maternal Pigeon Sits on a Hen's Egg and the Result Considerably Amuses Her.

D. Morris Haines, of Burlington, N. J., has a pigeon which recently showed a maternal instinct, but, not having any eggs of her own, was supplied with a hen's egg. Mr. Haines, says the Philadelphia Record, was curious to see what she would do with it. The old pigeon was tickled to death. She took the egg, carefully covered it, and immediately began the process of incubation. At the end of three weeks the inevitable happened, and a little chick hopped out of the shell. The old pigeon surveyed the result of the job in amazement. She had expected a little blue squab, and lo! a little yellow chick appeared. She seemed puzzled for awhile, but finally went about her maternal duties. Every thing was all right as long as the chick remained in the nest, but as soon as it got out on the ground there was trouble. Occasionally the mother, remembering that she was a pigeon, would get up and fly, thinking the youngster would follow her, but he remained on the ground as hard and fast as though he was anchored there. The only thing he could do was to stand still, watch his mother fly and yell for her in his own peculiar way. Then he tried to imitate her, but up to now his best effort has been a six-inch jump, a flap of the wings and a squawk. The little mother is persevering, but she is nearly discouraged.

Canada's Homestead Law.

Canada has a homestead law. Farm lots of 200 acres are granted to each head of a family and 100 to each male adult on condition of their building a log house 16 by 20 feet, cultivating 15 acres in every 100 and residing six months in each year during five years on the property.

GOING TO OMAHA.

WASHINGTON, Sept. 6.—The President and many as members of the cabinet as can do so will attend some portion of the peace jubilee at Omaha in October. The President so informed the delegation of Nebraskans who called at the White House today. Only pressing public business will interfere with this program. The party will probably leave here Oct. 14.

AFRAID OF THE CLIMATE.

NEW YORK, Sept. 6.—The Eighth Ohio left Camp Wikoff for home at 2 o'clock this afternoon.

More desertions are reported from the ranks of the Regulars, due to the announcement that part of the Regulars are to be sent back to Cuba for garrison duty. They are afraid of the killing climate there. Gen. Shafter is giving special attention to the numerous desertions and dissatisfaction among Volunteers at not being sent home. He is expected to take some decided action today.

It is to be feared that unless Republican property should receive a setback in the near future the entire group of islands known as the Antilles will all want to be annexed to the United States. Jamaica has opened the way for others.

The Hon. D. E. Caldwell had something to say in his speech at the Mason county Democratic convention Saturday about breaking up a corrupt Republican ring in this county. As he is in the business of corruption himself why don't he buy them if such a ring exists and break it up that way. It ought to be no trouble to buy them who are corrupt.

The Democratic Chicago Chronicle since it swallowed free silver is doing what it can to lead the Democrats in an attack on the administration concerning the conduct of the war and has become no better than it attacks General Joe Wheeler for writing the letter stating the facts as to the loss of the troops and the unavoidable casualties. This is the same old story that the man who did not go to the front knows best how to run an army and big battles.

Hon. D. E. Caldwell again has declared if he is elected to congress he will get a public building for Decatur. He could no more accomplish such a thing than he could locate a world's fair in Decatur. Men of infinitely more influence than he could possibly have even in case congress were Democratic, have tried to get public buildings in cities in which they did not reside and could not do it. The facts are Decatur will not secure a public building until it gets a resident congressman and every vote cast against it. It will be a vote against Decatur having a public building and Caldwell knows this as well as anyone who knows how these things are done in congress. What he wants is votes and if he gets enough to elect him Decatur will be left in the cold.

EXPOSURE OF WHOLESALE LYING.

Indianapolis Journal: The statistics of mortality in the army which the Chicago Tribune has collected make the aggregate of deaths 1381. It states that the aggregate, if all the deaths could be obtained, would reach 2900. As 350 were killed in battle or died of wounds on the basis of the Tribune's estimate 1000 have died of disease. Considering that over 900,000 men have been in camps, a total loss by disease of 9000 would have been but one man to each 100, or about one man to a company. The loss of the eight Indiana regiments, with an aggregate of 7115 men, which served 100 days in the civil war, was 132 by disease, or nearly two men to each 100 enrolled. The four six months' regiments (the Pozzomun brigade) lost 880 men by disease out of a total enrollment of 4085, or at the rate of 7.88 men to each 100 enrolled. The mortality of all the short-term regiments in the war for the union which went out of the states in which they were raised and were not in battle was greater than the loss by disease of all the regiments in the present service prior to muster out. None of these short-term regiments of 1861-5 were exposed to yellow fever or to the privations incident to long sea voyages, and yet their losses by disease were in the aggregate to each 100 men greater than those of all the troops mustered into the service during the present war.

It has been reported in the northern part of the state that 70 per cent of Colonel Stedeker's regiments were sick and that the men were "dying like sheep" wherever they may mean. Colonel Stedeker's regiments have had by far the severest experience of any of the

Indiana regiments. It has been in Florida since early in June, under extremely trying conditions. When it arrived here yesterday its loss by death had been 14 men—a fraction over one to a company. It had 24 men so ill as to be sent to the city hospital and 93 men on the sick list, all of whom went to camp, not being seriously ill. This means that less than 10 per cent of the men in the regiment were unfit for ordinary camp duty. The men who marched through the streets with the careless steadiness of veterans were browned by exposure, but there was no indication of general feebleness in their movement. The march portrayed skill and cross-bones of the sensational newspapers could not be seen hovering about the column as it marched. Considering the exposure in a tropical climate, the wonder is that so few men are on the temporary sick list. Indeed such a journey as the regiment has had would unfit many men for marching while carrying the equipment of a soldier. It may be added that if 1000 men had been put in camp and had been at work in the last month in Indiana, 10 in every 100 would now be unfit for labor.

UPHOLDING McKINLEY.

The strength of President McKinley with the people of the United States is growing and developing every day. Men of all classes and professions, regardless of political affiliations are known in this popular uprising in his favor. An incident which occurred at the Saratoga foreign policy conference will illustrate the fact that the president is held in high esteem by men of opposite political coming even from the far south. During the proceedings of the Saratoga conference some eastern delegates made a statement reflecting on the administration in connection with war expenditures. Scarcely had the speaker uttered the words when Mr. H. H. Bacon of Georgia, a prominent Democrat, springing to his feet and said: "I fought in the rebel army and I never scratched the Democratic ticket in my life, but I would feel that I had been an coward and afraid of my duty if I failed to resent that imputation against the administration of President McKinley. This is not the time nor the place for any such insinuations as the gentleman has uttered. Although I was a rebel and am a Democrat, I want to express my entire satisfaction with the courage and wholly just and sensible manner in which President McKinley has conducted this war, and I want to add that it is not only my personal conviction. The entire south feels as I do. I live with the people of the south, and I know."

Say Morrow's Kid-Ne-Olds Cure Lame Back and Kidney Ailment.

Philip Blenz, 447 North Water street, is but one more person in Decatur who pronounces Morrow's Kid-Ne-Olds all right. He ought to know, he has used them. The proof lies therein. He bought them of Armstrong Bros., and he told a resident what I am now telling you: "I am, and have been, subject to trouble with my back and kidneys for the last number of years. I suffered greatly with pain in my back, in the region of the kidneys, which is across the narrow portion just above the hips. Once I was so very bad I had to employ a doctor. Hearing great reports of the curative properties of Morrow's Kid-Ne-Olds I went to Armstrong Bros., and got a box. I found relief from their use in just a few days. They have won my confidence completely, and I shall both use and recommend them if I require them from this on."

They are worth a dollar a box but Armstrong Bros. sell them at 50 cents, or by mail from John Morrow & Co., Springfield, Ohio.

A CRITICAL TIME

During the Battle of Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY.

The Packets at the Battle of Santiago. As Cuba Was All Heres, Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. BROWN, of pack-train No. 3, writing from Santiago, De Cuba, on July 23, says: "We all had diarrhea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect cause of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrades and myself had the good fortune to lay in a supply of this medicine from our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa, for sale by J. M. Kinn & C. F. Sullivan.

FOR THE STAMP COLLECTOR.

There is a rumor that Hayti is having a new stamp issue prepared in Paris.

British Buchanland is now part of Cape of Good Hope colony, and hence will not issue any more stamps.

In Mexico every journal, ledger, cash book, day book or other record kept by a business house, or for private use, must have a five-cent stamp on every page.

Julius Goldner, the wholesale dealer of Hamburg, whose death was reported, is said to have made \$500,000 during the 35 years he was in the stamp business.

Greece has issued a new series, the values and colors as follows: 11, brown; 2, green; 5, sepia; 10, blue; 20, violet; 25, carmine; 40, orange; 60, brick red; 100, gray; 200, scarlet; 300, rose; 500, yellow.

Some of the stamps of Russia are said to be printed on "gold beater's skin." They are not; it is a transparent paper which was invented in this country, but not used by our post office department.

The new stamps of Persia have appeared, and are as follows: 1 sh. gray; 2, blue; 3, mauve; 4, vermilion; 5, yellow; 6, orange; 10, blue; 12, rose; 15, green. The 1 sh. has effigy of the present shah in profile to right. It is blue.

A new frank has been issued by the Alaska Pacific Express company. It is printed on the two-cent United States envelope and sold at ten cents each. It is used to carry letters from the Pacific coast to Alaska.

It is reported that there will be another change in Canadian stamps. The French-speaking inhabitants complain that the values are in English only. Therefore the maple leaves in the lower corners are to be replaced by numerals of value. There will be other slight changes. Perhaps the colors of the 1-cent and 2-cent will be changed to green and red, the Postal union colors.

Carpets, rugs, etc., are kept in place on the floor by a perforated plate which has a number of sharp points set in its surface to hold the edges of the carpet after the plate is screwed down to the floor.

Bicycles can be identified by a new protective seal, which is composed of a steel case, which covers the ends of a circular link by which it is attached to the tubing, the face of the case containing a name-plate.

A Chicago man has patented a cross-cut saw which can be operated by one man, a crescent-shaped blade being pressed against the log by a spring and rocked part way around a circle by means of a crank and gear wheels.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this nutritious cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles 10c, at J. E. King's and C. F. Shilling's drug stores. Regular size 50c and \$1.00. Guaranteed to cure or price refunded.

Mackinaw Falls, Sept. 11, 1898.
A basket picnic, slack wire performance and band concert. Sponsor's band of Peoria needs no recommendation; Goodman's band of Decatur is equal to any; Bauer's military band of Pekin and Mattoon military band are too well known by all to need an introduction to the public. Mt. Pleasant and Clinton bands will also be there with such an array of talent it would be impossible to comment in too high terms the character of the music which will be discoursed at Mackinaw Falls on the above date. Don't miss it. Cheap rates via the P. D. & E. Ry. Special train service. Call on your ticket agent for particulars.—31-dif

Letters were received in this city yesterday from Howard Hanthorn, who has been ill of typhoid fever at St. Vincent's hospital near Chattanooga. OPENING MEETING.

Work of the Year Started at Woman's Club—Program and Refreshments

—Talk by Mrs. Tyler on Physical Culture and Education.

The first general meeting of the opening year of the Woman's club was held at the club rooms on Monday afternoon. Fully two-thirds of the membership was present and the work of the year opened up with vim and eagerness of an interest and enthusiasm which means that the coming club year will be another year of improvement, instruction and pleasure for the members, added to the list.

The meeting was called to order with Mrs. Ida N. Baker, the president, in the chair, and Mrs. Florence McConnell, the secretary, at her place. The business session was short. Reports from different committees were heard. A committee reported that 12 new tickets had been made and sent to the members of Company H at Chickamauga by the women of the club, that a picture had been purchased of Miss Laura Johns for the club rooms, that the committee appointed to organize the branch of the Army and Navy league had decided not to organize at present and that a telephone would be on the second floor of the club rooms.

Delegates were appointed to the meeting of the state federation which will be held in Chicago on October 18, 19, 20. They were Mrs. Devere, first vice president of the club, Mrs. Frank Wanta with Mrs. Florence McConnell and Miss Sarah Murphy as alternates.

Following the business session Mrs. Jeannette Tyler of St. Louis, graduate of the St. Louis school of oratory and a pupil of Edward P. Perry, of the National Association of Physical Culture and Education, talked before the club, giving an excellent illustration in pantomime of the language of the body, showing by the expressions of the features and body how meaning is gracefully conveyed without words. Mrs. Tyler after her short talk recited the "Garden Song" from Julius Caesar.

In her talk she outlined her method of work. The lungs are filled with millions of air cells which, if spread out, would cover an area of 14,000 square feet. The breathing gymnastics are to develop and strengthen these air cells. The diversifying exercises are taught. By this exercise the nerve force is called in and we are taught to rest the nerves. Then follows the re-vitalizing or letting out of the nerves force. Any two agents of the body moving in the same direction are inharmonious. All opposite movements are simultaneous, all parallel movements, successive. The mistake of taking up the heavier work in physical culture before the body is ready to receive and benefit by the heavier work is made. It is introduced. In conclusion Mrs. Tyler pointed out how all women are better women physically and mentally by the proper use of the body.

Mrs. Tyler is possessed of a charming personality and the members of the club were much pleased with her talk. She will decide within the next few days whether or not she will organize a physical culture class in the club. Should she decide to do this the class will be organized much on the same plan as the class was carried on in the club before. The club members are given a special rate and outsiders admitted at a higher rate. Mrs. Tyler will also endeavor to organize classes in elocution and hopes to introduce the pantomime work which comes in the advanced course. Mrs. Tyler is the guest of Mrs. Frank Rhodes while in the city. She is the schoolmate of Miss Frances Calk.

Other numbers which contributed delightfully to the program were vocal solos by Miss Emma Hoyd and Joe Stout and an instrumental piece by Miss Lillian Stout.

Refreshments of trappé and wafers were served in the dining room after the meeting by the Misses Whitehead, Lillian Irwin, Laura Shafford and Leonette Johnson. The table was decorated in the club colors of yellow, the centre piece being a huge bowl of yellow asters.

"Dream of Fairy Land."

A large audience was present at the Grace M. E. church last evening to witness the second production of the oratorio "A Dream of Fairy Land." The rendition was given by 60 young girls with beautiful costumes. The drilling of the girls and the management of the affair was in charge of Miss Clara Shasteen and Miss Grace Gilmore. The latter played the pipe organ accompaniments. Those who took leading parts in the performance were Winnie Davidson, Fay Kennedy, Clara Phillips and Emma Dennis.

This entertainment was one of the most popular and financially successful ever given at Grace church. A flash light picture of the costumed performers was taken at the close of the entertainment.

AT THE GRAND.

THE GREAT TRIPLE ALLIANCE.

The newest novelty in stage entertainment thus far devised is the alliance effected by Servais Le Roy, Imro Fox and Frederick Powell under the title of "The Great Triple Alliance." These three performers, well-known representatives and exponents of the art of acrobatics, surrounded by a company of high class vaudeville performers will be seen in this city at the Grand opera house next Wednesday night. Their performance will be something absolutely new in the line of stage entertainment and must not be confounded with the old time performances of the numerous acrobatic magicians. In addition to novelty the following high class vaudeville stars will appear: Cushman and Holcomb the leading travesty artists of the American stage; the marvelous Doro's famous European musical grotesques, Hector and Laurain "Les Incomparable econtiques," and marvelous whirligigs; and Zarella and Vernon the wonderful acrobatic pair performers. "The Great Alliance" carries special scenic productions and elaborate stage effects and accessories. There will absolutely be no advance in prices.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

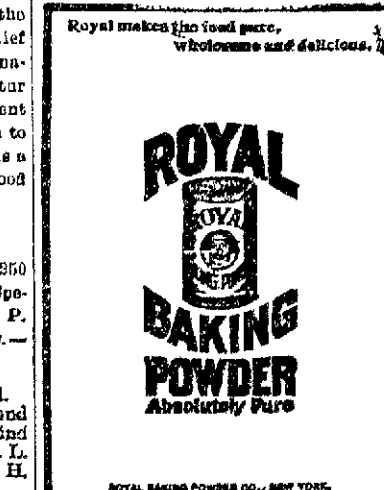

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. P. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.
